**Additional Information**

Made-to-order items: Minimum order requirement of \$250 (USD) and predetermined incremental/minimum order quantity of item must be met. It is our policy to consider orders complete when +/- 10% of a made-to-order product is shipped. Every effort will be made to ship the quantity ordered. Customer will be invoiced for the exact amount shipped. Honeywell reserves the right to sell all overrun imprinted merchandise.

**Overview**

**Key Features**

WorkEasy series WE100, WE110, WE200, WE210 and WE220 all feature polyester liners that are seamless and lightweight for excellent dexterity and tactile sensitivity. Liners keep hands cool, and protected from dirt, and incidental cuts and abrasions, whilst allowing to work on the smallest of parts. The WorkEasy styles features either polyurethane or nitrile coatings, adding protection and grip.

The WE50 features a lightweight, 18 gauge nylon knit with super thin polyurethane coating. WE50 stretches and fits tight to feel like a second skin; and is an excellent glove for small parts handling and intricate work.

The new and improved **WorkEasy, WE300** style features a cut-resistant fiber blend, and durable nitrile coating for added strength and durability. The economical WE300 is ANSI cut level 3, great protection at a value price!

**Recommended Industries/Use**

- Construction
- Municipal Services

**Hazards**

- Abrasion
- Cut / Puncture

**Warranty Information**

Honeywell warrants that it's gloves are free from defects in material and workmanship. This limited warranty does not cover any product or component found to have been altered, misused, abused, tampered with or improperly maintained or to have deteriorated due to aging of any component made of rubber or any other elastomer. The limited warranty does not cover any damage, loss or expense due to damage caused by accident, abuse, improper maintenance, use or misuse of the product.

**Specifications**

**Specification Information**

- Honeywell tests gloves in accordance with guidelines set by the American National Standards Institute (ANSI). To view ANSI testing information on individual part numbers, refer to the Technical Specification documents located in the Downloads and Documentation section.
