

PowerFlex®

80-600

Heavy duty cut-resistant glove with
DuPont™ Kevlar®

HD

Heavy Duty

Cut-Protection

Excellent cut resistance with comfort and a sure grip

- Ansell's PowerFlex 80-600 glove is to safely handling glass, metal and plastics. It offers exceptional cut resistance and robust overall mechanical performance plus superior comfort.
- The Ansell PowerFlex 80-600 glove is rated at the exceptionally high cut level of EN level 4. This high level of protection is achieved through the Kevlar® knitted liner and natural rubber coating. This coating stands up very well to abrasion, tearing and punctures.
- The latex coating's raised crinkle finish gives the glove an excellent grip in both dry and wet conditions.
- Silicone-free PowerFlex 80-600 gloves prevent fingerprints on metalied warm insulation glass, leaving surfaces clean and eliminating the need for extra cleaning.

Industries

- Appliance manufacturing
- Automotive
- Electricity
- General carpentry
- Glass
- HVAC/sheet metal users/window glazers
- Masonry/tile
- Metal fabrication
- Natural gas
- Plumbers

Applications

- Handling glass sheets, sharp-edged objects
