

SPERIAN ARM PROTECTION - 4 x 4 Kevlar/Cotton Blend

PRODUCT INFORMATION

Part #	Length	Attributes	UPC
KVS44-2-14	14 inches		801462004182
KVS44-2-14TH	14 inches	Thumbhole	801462004175
KVS44-2-18	18 inches		801462004205
KVS44-2-18TH	18 inches	Thumbhole	801462004199

Shell Material:	Kevlar and Cotton Blend	Material Color:	Yellow
Ply:	2-ply	Coating Color:	NA
Coating Material:	NA	Case Qty:	100 Each
Coating Pattern:	NA	Country of Origin:	China

PRODUCT FEATURES

- Kevlar and cotton are blended together making a softer more comfortable sleeve
- Sleeves are effective in cut and abrasion resistance
- Sleeves can protect arms from radiant heat; do not expose to an open flame

TESTING INFORMATION

	Test Method		Level	Test Result
Abrasion Resistance:	ASTM 3389-05		not tested	≥ cycles
	EN388		not tested	≥ cycles
Cut Resistance:	ASTM 3389-05		Level 2	≥ 500 grams
	EN388		not tested	≥ grams
Tear Resistance:	EN388		not tested	
Puncture Resistance:	EN388		not tested	

LAUNDERING INSTRUCTIONS

Dry cleaning is the acceptable cleaning method for gloves of KEVLAR fiber. Some differences in shrinkage, weight loss, yarn tensile strength, and color related to staining or the cleaning method may be seen, but there is no significant impact on cut resistance up to 30 cleaning cycles (without industrial use between cycles). Thirty cleaning cycles is considered to be more than can be expected because of normal wear. Chlorine bleach is not recommended for KEVLAR - chlorine will cause rapid degradation of the fiber. Wash or dry temperatures should not exceed 170° F.

WARNINGS

- * Sleeves are cut-resistant, not cut proof. Extreme caution should be used around moving machinery.
- ** Laundering sleeves that have been in contact with toxic or corrosive chemicals may result in a chemical reaction, including fumes that could cause personal injury, serious illness or death.

This information is provided as a guideline for product use. The end user is solely responsible for determining the suitability of a particular glove for a specific application and the length of time in which such glove may be safely used.
